Ice Shooters Tray

INSTRUCTIONS FOR USE

- Remove lids from each Ice Shooter mould cup.
- Fill cup ¾ from the top with water or other non-alcoholic beverage.
- Carefully replace lid on the cup.
- Place filled mould into a freezer for at least 5-6 hours. For best results, place on a flat, level surface.
- Remove Ice Shooter mould from freezer.
- To remove Ice Shooter from mould: Run room temperature water over the outside of the mould (not inside) to loosen the frozen Ice Shooter. NOTE: Using hot or warm water will melt the Ice Shooters.

PRECAUTIONS

- It is recommended that the Ice Shooter be removed from the freezer and mould just a few minutes before use.
- To reduce melting, it is best to pour a chilled beverage into the Ice Shooter.
- Attempting to remove Ice Shooters from mould without applying water to the outside of the cup will cause the ice to crack during removal.
